REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance: the prior art fails to disclose a device for automatically locking shipping containers to one another comprising an operating element movably mounted for upward and downward movement within a housing. The operating element comprises a tapered cut portion to allow the locking pin of the housing to extend into the center opening for engaging a sloped groove in the circumference of the lower locker, which is located in the center opening of the operating element. The prior art fails to disclose a device for automatically locking two containers together with an upper locker and lower locker when one container is placed on top of the other. The prior art also fails to disclose a device for automatically unlocking two containers that are locked together with the claimed device when the top container is lifted off the lower container. This motion causes the device to unlock from the lower container.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Jack W. Lavinder whose telephone number is 571-272-7119. The examiner can normally be reached on Mon-Friday, 9-4:00pm.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Judy Swann can be reached on 571-272-7075. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
